# Engineered Flooring

---

*High quality plywood with a veneer of pre-finished fine hardwood. Our engineered flooring is chosen for variety and quality.*

The top layer can be sanded and worked on at least once or twice, meaning you have more forgiving flooring for stains and marks. The natural looking finish of engineered flooring is undeniably its best feature.

Disclaimer: Samples are a reference only, we have tried to give you a true reflection of the flooring, however you must check you are happy with colour, shade and for any defects BEFORE installation. Once installed, flooring is considered accepted and we will not offer refunds.

All engineered and solid wood flooring installations should be carried out in accordance with the current industry best practice standards which at present is BS 8201:2011.

*Express Click Country Walnut*

*“The natural looking finish of engineered flooring is undeniably its best feature.”*

# The Benefits

*Less costly than solid hardwood flooring*

*Compatible with underfloor heating*

*Has a real layer of wood on top (unlike laminate flooring)*

*Difficult to tell apart from solid wood flooring once installed*

*More resistant to fluctuations in temperature and humidity than solid wood flooring*

*Available in different wood species, styles, colours, finishes and plank widths*

### WOCA Master Care

Suitable for all types of wooden floors oil finishing. Hardwax oil ensures an extremely hard wearing surface. Creates a light film building surface.

Colours: Extra White / Natural

- Apply manually or with a polishing machine
- Suitable for large areas
- Film building
- Certified by IBR

### Intensive Cleaner

It is used for basic cleaning and removing grease on untreated, oiled, lacquered or soaped indoor wood surfaces. Can be used on wood work such as furniture, staircases, doors, panels and worktops. Cleaner can be used independently on indoor wood surfaces that are oiled, waxed or lacquered.

- Ready mixed, easy to use
- For untreated, oiled, lacquered or soaped indoor wood surfaces
- Basic cleaning and grease removing

### WOCA Oil Refresher spray

Coverage: 20 to 40 sq. ft.  
Colours: Natural / White

### WOCA Oil Refresher bottle

The soap and oils come in 0.75l spray bottles and 1 litre tubs. The spray bottles are a diluted solution for small areas, whereas the 1 litre tubs have to be mixed and can be used in large areas.

- VOC free
- Ensures maximum dirt resistance and water resistance from day one
- Enhances the natural colour of the wood
- Gently cleans and maintains the floor
- Oils the wood floor with each application
- Leaves a protective matte oil film on the surface of the wood floor

*With the specially developed WOCA flooring products, wood floors are kept beautiful and well protected.*

### WOCA Natural Soap spray

#### WOCA Natural Soap bottle

The soap and oils come in 0.75l spray bottles and 1 litre tubs. The spray bottles are a diluted solution for small areas, whereas the 1 litre tubs have to be mixed and can be used in large areas.

WOCA Natural Soap makes maintaining oiled furniture, doors, table tops, panels, stairs and floors easy. Natural Soap is a high quality soap with nourishing properties. It quickly closes the pores of the wood to protect the surface against dirt and the penetration of liquids.

### WOCA Maintenance Oil

Is for regular maintenance of all oiled wood floors. Maintenance Oil is oil based and provides floors with an additional hard wearing surface. It highlights the natural wood grain and colour. Using WOCA Maintenance Oil is simple and can be applied manually or by polishing machine.

Product, room and floor temperature should be between 59°F–95°F. Ensure good ventilation at all times during the application and drying time.

### Maintenance Kit Lacq/Vinyl Maintenance Kit With oil – Natural Maintenance Kit With oil – White

Coverage: 20 to 40 sq. ft.  
Colours: Natural/ White

- Re greasing effect
- Suitable for toys
- Nourishing properties

#### Cleaning agents:

Emollients extracted from soy beans and coconut oil, which also retain moisture in the floor, just as quality soap would for your hands. As they dry and form an invisible film on the surface, the floor receives added protection against wear and dirt. When a floor has been finished with a White oil, Soap White should be used to reinforce the lighter look.

The maintenance kits contain the following:

- 1L Natural Soap
- 1L Maintenance Oil
- 1 Wood Cleaner
- 1 x Cotton Cloth
- 1 x pad
