

ISSUED OCT 2020

CARPETS

The Benefits

Carpet is a luxurious and comfortable floor. There is a suitable carpet for every room in the house or office. From a soft bedroom carpet to a luxury carpet for the living room or hotel room, to a practical carpet for the hallway and stairs or home office.

IMPROVES AIR QUALITY

It actually acts as a passive air filter, trapping dust, pollen, and particles and then removing them from the breathing zone.

ECONOMICAL

Generally speaking, carpet often costs much less than hard surface floors.

NO MORE COLD FEET

Carpet provides a warmer, more comfortable surface than other types of flooring.

VERSATILE

Available in a range of styles, thicknesses and textures to suit all looks.

NOISE REDUCTION

Carpet absorbs sounds and minimises noise levels.

STAIN RESISTANT & EASY TO CLEAN

The advanced Polypropylene yarn is bleach cleanable and stain resistant

Our soft carpets
provide you with a
feeling of comfort
& luxury.

Carpet Ranges

Flanagans are proud to offer a great range of quality carpets in a range of shades for a competitive price.

Most of our carpets are polypropylene, chosen for its excellent stain resistance, resistant to any water based stains. Our carpets are also versatile. Each of our products have great stain resistance, supersoft yarns, and are compatible with underfloor heating. They also lower VOC emissions for those with allergies.

We also supply Thomas Witter wool carpets, these vary in a mix of natural wool and synthetic fabric, giving you a balance of stain resistance and long lasting high quality wool.

Disclaimer: Samples are a reference only, we have tried to give you a true reflection of the flooring, however you must check you are happy with colour, shade and for any defects BEFORE installation. Once installed flooring is considered accepted and we will not offer refunds.
